SCUPPERS ARE THE NEXT WAVE IN POOL WATER FEATURES

Copper scuppers create a whole new sense of design and style in a pool. This is a water feature that is designed to be seen!

CMP has the most complete and advanced line of scuppers available, made from the highest quality construction and materials.

SMOOTH FLOW VS NATURAL FLOW

Most scupper styles are natural flow, creating a bubbling, lively stream of water.

Smooth flow styles are multi-chambered with an angled baffle to create a glass-like sheet of water.

WATERFALLS VS SCUPPERS

CMP waterfall options disappear into the wall and create a sheet of water.

Scuppers are made to be seen as a design element available in a variety of styles.

LIVING MATERIAL: COPPER PATINA

As soon as it is installed, copper begins the beautiful and natural process of patina.

The material will develop brown, blue and green colors: no two are alike! This is not rust - it is a natural process that adds to the beauty of the product.
The Pure Flow waterfall creates a beautifully thick sheet of water that can flow up to 3' into your pool. Say good-bye to clogged waterfalls; an integrated mechanism breaks up and slices debris to keep things running clear.

So-long warping waterfalls; with a waterfall constructed of thick, marine grade stainless steel, you will never again worry about bending or caving.
LOOKING FOR EVEN MORE THAN SCUPPERS?

HYDROXYLS ARE ABOUT TO GET A LOT MORE RADICAL.

The Next Generation AOP 25 And The All New AOP 40 Are Coming...
You can just call it the All-in-one Self-Contained Sanitizer Status Monitored High Flow Built-in Injector Manifold Compact Easy Installation Flow Through Advanced Plasma Gap Right-Sized Serviceable DEL Advanced Oxidation
VENTILATED 360 GLOW RING
The integrated patent-pending glow ring allows for safe, visual confirmation that the UV lamps are working. Built-in ventilation allows air in and keeps moisture out, protecting the ballast.

BUILT-IN TOTAL DRAIN VALVE
Service and winterize the UV-C 50 without disconnecting from the system plumbing. The system internals are specially designed to ensure complete drainage.

INTELLIGENT COVER DESIGN
Integrated cover interlock cuts power when the cover is removed. A heat shield protects the cover from ballast heat, secures lamp connections & protects from moisture.

SAME GREAT DESIGN + NEW LOWER PRICE = BEST VALUE
The goal when designing a sanitizing system for a backyard pool is to create the best possible installation. Every tool has strengths and weaknesses—the key is to choose components that work together to achieve the best result! A combination of a residual system and an advanced sanitizer system creates a pool that is clean, clear and safe.

SUMMER IS BETTER WITH SALT™
CMP.COM/SALTYSUMMER
SMART FEATURES

CLEAR CELL HOUSING: It’s easy to inspect the cell plates and see when it’s time to clean. With other salt generators you have to guess when the plates are dirty.

UNIVERSAL SENSOR: A built-in sensor inside the cell constantly checks for faults due to flow, temperature or calcium build-up.

DESIGNED WITH MAINTENANCE IN MIND

CLEAN WITH ZERO ACID: Cell plates are completely removable for easy cleaning with no dangerous chemicals.

SUPERIOR CELL PLATES: Wide-set individually powered cell plates help reduce scale “bridging” that shortens the life of competing salt cells.
20" UNBLOCKABLE RING DRAIN
A high flow, VGB compliant design that disappears into the pool.

The complete ring shape has a unique plaster-filled design that blends in with the pool completely.

No more top to fill with pebble and no center plumbing!

Install more naturally with a completely open center.

The Ring Drain from CMP sets a new standard for style, flow and safety in the pool.

FACTORY QUALITY YOU CAN TRUST AT A FAIR COST

You don’t have to settle for cheap “knock-off” replacement parts. With CMP Replacement Parts you get quality, long life and certification. The CMP replacement for T-15 style salt cells is independently certified and precisely manufactured to factory standards quality.

The CMP T-15 style cell is a quality replacement for the popular salt cell. Now you can take care of your pool and your wallet at the same time.
